2 Commentary

1. So far this is one of the easiest ones. It was done in about 30-40 minutes according to the time tracker in my productivity app.

3 New coins

1. silra, “to hunt”, from dzinjrá
2. silrili, “hunt”, from dzinjryng
3. gi, “to jump”, from gy
4. itsa, “with”, from hytsa
5. kalkulu, “to teach”, from khánjkun
6. lilsa, “to win”, from njínza

khánjkun / kalkulu has a native Thiguka word:

1. kalath, “to teach, to give knowledge”
2. fahkalath, “teacher”

The lexicon mistakenly has ”kalath” as ”teacher”.
